SOUTHWEST VIRGINIA NOTES.

Over 1,200 feet of the 1,620 of the Kensington tunnel on the Chottanooga Southern railway has been completed. This is about 200 feet a month. At this rate of progress it will take until June 1st to complete it. The stone is intensely hard, which makes the progress slow.

Mr. J. L. Huffman, foreman of the Staunton Shee Factory, has resigned that position to accept the formanship of the Harrisonburg Shoe Factory. He brings with him from the Staunton establishment ten or twelve of its best male and female concratives. male and female operatives.

Mr. W. D. L. Borum, of Lynchburg, and Mr. C. A. Phau, of Petersburg, went recently on a trip to Northern and Eastern cities in the interest of the Petersburg Battlefields Land and Development Company, which has recently taken shape. The company has secured a large body of land in the immediate vicinity of Petersburg, embracing a number of points of historic interest, among them the famous "Crater," and will proceed to improve the property by laying off parks, streets, etc., and by building a large modern hotel in the midst of attractive grounds near the "Crater." They will also donate fifty acres as a site to a Soldiers' Home and aid and encourage other improvements.

The largest deal in Main street property in Bristol that has ever been made was closed this week. The vacant lot just west of the Thomas House was sold to Dr. J. F. Hicks and Dr. J. A. Dickey for \$500 per front foot, the fifty-five feet bringing the sum of \$27,510. The property belonged to Messrs. Reynolds, Barker and Brown. One year ago this property could have been purchased for \$200 per front foot, and even four months since was offered for \$250.

Big Stone Post: Work on the plant of the Virginia Coal and Iron Company is progressing as well as might have been expected, considering the weather. The management is driving two entries that when completed will be four miles long, and develop 12,000 acres of land. The coal is six feet three inches thick, with a roof so remarkably fine that it does not require any timbering, even at the mouth of the entry. An idea of the very large amount of coal that will come from these entries is shown by the statement that each acre six feet thick contains 10,000 tons of coal.

There is also being located the stone work for a large tipple house; grading is being done for the location of the coke ovens, and stone being quarried to put up the retaining walls. Ten houses of the first hundred that are to be built are now almost ready. Major O'Brien, chief engineer of the Louisville and Nashville, has been here this week to let the contract for the building of his branch railroad to these works. This road can be graded, track laid and equipment put on in two or three months, and it has been located in such a way that the Virginia Coal and Iron Company people can place banks of ovens along almost its entire length. The management expects at first to erect 400 ovens. It has at its present place room for 1,000; on Mud Lick for 2,000; on Preacher Creek, 1,000, and on Roaring Fork, 2,000, making a total of 5,000 which will be constructed from time to time. The pay-roll of the company at the beginning will be about \$20,000 per month, which amount will increase so that over a quarter of a million of dollars will be spent there yearly, of which Big Stone Gap will get the indirect benefit.

The largest cash church subscription ever taken up in one church in Virginia was lifted at the Easter morning service at the St. Luke's P E. church, Norfolk, Sunday. The rector, Rev. A. S. When the baskets were counted after the service it was seen that his people had not only it was seen that his people had not only come up to his request, but had gone way over it, the cash and checks amounting to \$30,717.

Covington has a very inviting prospect before it. The railroad to Healing Springs is under contract and work already commenced. It is to be completed—24 miles—by the 15th of June, and this will keep the contractors hustling. The road will eventually be extended to the Warm Springs, as the same syndicate owns the Healing, the Hot and Warm Springs, and it is the purpose to connect these by rail and to establish a great sanitorium, where all can be accommodated who may apply, either in summer or winter.
